Commissioner Abernathy:

Dear FCC Commissioner,

As a mother of 2 young daughters, I am appalled at the excessive violence, sex, and bad language allowed on television. My children are allowed to watch very few programs -- some, not all, of the shows on children's networks such as Disney, Nickelodeon, etc., Animal Planet, and some TV Land shows (re-runs of old shows) are all that is safe for them to watch. I strongly believe that children come, over time, to believe that what they see on television is the norm for society, so allowing our children to be exposed to these damaging and negative elements on a daily basis is very detrimental to them.

It is frustrating to me to see the constant over-emphasis on sex and violence, all so that broadcasters and sponsors can make money off of the most impressionable and vulnerable segment of our society -- teenagers and young adults. Worst of all, our young children are becoming the innocent-bystander victims. I ask you to consider the critical responsibility that you, as a commissioner, have in American culture. The media has a tremendous influence on our society and it has gone swiftly downhill in recent years. Please impose the decency standards that the vast majority of Americans believe in. Thank you so much for your attention.

Sincerely,

Terri Tackett

Dear FCC,

I in my home, my husband and I decided that it is best for even ourselves to limit programs in our home. We cut off cable. We only rent movies. We don't watch rated R movies....There have been a few exceptions like the passion of the Christ. We (as adults) saw this movie. Our daughter did not. We have made it a rule in our home to limit violence, sex, and crude language in all areas of our lives. The biggest step was ridding our home of cable. We'd like to have cable, but the way that TV has evolved you can't trust any show, network, or program to give my family or any of America's families a safe place to enjoy good programming. Just go back to the super bowl. It is a shame that you can't even trust a ball game to entertain the American family anymore. I'd love to see tighter rules for programming. I'd love to have channels that are safe and trustworthy for my family. I do believe that violence, sex, and crude language is a huge detriment to the American family. i BELIEVE IT IS SO MUCH THAT IN MT FAMILY THERE IS NO CABLE. Please tighten up the regulations for TV, so that America's children don't suffer the consequences (ie: Columbine). Thank you in advance for listening to my plea. Thank you!

Sincerely,

I became aware of more and more violence on TV several years ago. This is not like that on programs like "Gunsmoke", etc which I still sometimes watch. The violence I'm talking about is a sick, usually graphic kind. I no longer watch this kind of garbage, and when I find out who sponsors them, I try to no longer buy thier products. These "shows" attract watchers strictly through violence or sex, or a combination--most basic emotions. The "plot" or "story" is either unbelievably weak or non-existent. It's not for me or my grandkids.
